PAT FEY  
Head Archer

An arrow flies out the window of the basement. Another one lands in the ceiling of the Girls' Gym. Panic spreads through the halls of Hughes. Are we invaded by some of the Merry Men from Sherwood Forest? No, it's only the Female Robin Hoods practicing for their annual archery tournament. Archery is the first G.A.A. sport of the season. It begins early in September and ends early in October with the Tournament. Gale Neal, winner of the Intermediate group, had 34 points, while Gerry Clark topped the Beginners with 41 points. The girls use wooden bows weighing four pounds. It takes a strong arm to bend the bow; but it is a wonderful sight to see an arrow go straight to the middle of a target for a perfect bull's-eye. This is the aim of every true archer. Archery attracted many of the underclassmen this year; even the seventh and eighth graders tried it. Every girl envies the one who can flex the mighty bow and send the arrow true.

## WILLIAM TELL, LOOK OUT FOR US!

Arrows show marksmanship of archers

Strong arms bend the bow for bulls-eye
