their contestants out to Lunken Airport Playground to "bring home the bacon" by winning high honors. Shirley Bridges is sportsleader.

There is also an intra-mural tournament here in our school.

Kickball, led by Nancy Tubb, is a sport which most of the girls learn in grade school and continue to master in high school. The sport's just what the name implies; kicking the ball.

Ping pong is played in singles or doubles, and is often called "table tennis." It takes a skilled hand to send the ball over the net and make it land on a spot where it is difficult for your opponent to hit it back. The best place to

aim the ball is the rim of the table on the opposite side. It is almost impossible to return it from this angle.

Shuffleboard is much like bowling only you use a stick, which is cupped to hit the disc. The object is to hit your opponent's disc out of your court without landing in a "minus" square. This game can also be played in singles or doubles.

Horseshoes is merely aiming the shoe (which is really rubber) at the stake in the ground and making it encircle the stake.

Badminton is another form of tennis only the net is above your head instead of on the ground.
