Tri Chi was organized at Hughes in 1946. The Greek letters "Tri Chi" stand for the three openings to a more perfect life. They are character, comradeship, and citizenship. Since all of the original members of the club at Withrow High School, where the club was originated, were athletes, the no smoking or drinking rule was established. This rule still exists in the Hughes chapter of the club.

Some of the activities during the year are dances, picnics, and date parties, in addition to both religious and charitable activities. Regular group attendance at member's churches is another outstanding characteristic of this club.
