

FOOD AND MUSIC COMBINE TO SOOTHE SAVAGE BEASTS

The scene of a mad rush every day beginning at about 11:30 and ending at 1:00 is the Hughes lunch room. Stormed every school day, rain or shine, the lunch room has miraculously survived. In front of all this rush is the hard working, much loved lunch room staff, a staff composed of women and students. All of the delicious food is prepared by women cooks under the direction of Miss Raible. Lunch line guards and cashiers are students. The students receive a thirty-five minute lunch period, most of which is contained in the fourth bell. The lunch is served cafeteria style, with a wide variety of meats, vegetables, deserts, drinks and salads. Each student carries out his own tray upon leaving the lunchroom. A crew of women and students then prepare the utensils for the next day. As an added attraction, "canned" music makes the lunch hour more pleasant.

Lunchroom cashiers and Miss Raible.

The "clean-up" crew washing trays.
