Brown, C. Lohrum, J. Mount, B. Kennedy, N. Huppertz.

JUNIOR HIGH ACTIVITIES

The Junior High Science Club, started in December of 1953, was the first club composed of seventh and eighth-graders at Hughes.

Miss Helen Betty Neuman is the capable sponsor and has helped greatly to develop the organization.

Various speakers, movies, slides, and other ways of having information showed the young people how their daily lives are affected by science.

"Little sisters" to the girls in the Senior Y-Teens are the members of the Junior Division of Y-Teens. The Club is sponsored by Miss Diane Scott, a new teacher at Hughes this year.

This year's activities included a successful Ice-Breaker Party, bake sale, visiting the county home, and singing Christmas Carols.
