## FUTURE NURSES OF AMERICA

If you're looking toward nursing as a career, the club to see is the Future Nurses of America. Activities include a Christmas Party with the Intercity Future Nurses, a picnic, and a Mother-Daughter Tea. Speakers adorn the programs once a month, and programs provide the members with information on their sought after career. Exhibits and lectures are attended by the members with the gained knowledge transferred to the club.

The newest, yet most active club to claim such distinguished Huzites as its members is Kappa Beta Phi. From its small and inconspicuous start by Mr. Hank Gordon, this Hughes Greek Letter Honor Club has grown both in members and in activities. The members are indeed proud of the Key, and all for which it symbolically stands; the key with which **they** have been entrusted. The society convenes in Room 330 where it plans its many and varied projects. A few of the club's time-consuming functions are wastebasket, basketball, music appreciation, archery, photography, well, for awhile anyway—and some occasional literature. Grand Supreme Imperial Illustrious High Guardian of the Key is Mr. Robert Portune. The club and its members look to the future with hope and a deep sense of futility.

Motto: "PER ASPIRIN AD NAUSEAM."

## KAPPA BETA PHI

Kappa members enjoy Meditation Hour.
