

The Science Club, for its membership, draws upon students from classes such as this one in eighth grade science.

FIRST ROW: (left to right) T. Barnett, K. Karper, S. Everett; Recording Secretary; D. Redding, Treasurer; L. Hagen, President; J. Oettinger, Vice-President; D. Ilyin, Corresponding Secretary; M. Hall, P. Brooks. SECOND ROW (left to right): D. Frank, S. Mechler, R. Goering, S. Cole, B. Bunton, R. Schlemmer; J. Denham, C. Mincey, F. Heal, M. Young. THIRD ROW: (left to right): B. Johnston, B. Hall, S. Rose, S. Burggraf, D. Battles, R. Stone, C. Nix, J. Mohr, M. Grimm, P. Roark, D. Landers. FOURTH ROW: (left to right): W. Dearwester, S. Quinlan, K. Swisshelm, H. Muegel, L. Ramsey, D. Bosse, E. Koch, P. Norwood, D. Dodson, M. Ratliff, C. Dock, A. Gay.

Science Doors Opened

Junior High Science Club is under the able direction of Miss Helen B. Newman, who helps stimulate a further interest in science and its many fascinating fields. Illustrated slides and movies dealing with various phases of science are shown throughout the year. Subjects range from tropical fish and reptiles, to birds, jets, and pharmacy. Comparatively new, the club is composed of seventh and eighth grade students, eager to learn the scientific facts of the world around them.

Miss Helen B. Newman guides the Junior High Science Club activities.
