Because of the large membership, most of Honor League's activities are scheduled and planned by the Executive Board of the club. At the final picnic in June, each member of the new board selects one or two projects to organize and, as the time approaches for her activity, appoints a committee and goes to work. She may choose the committee members from the club, and all girls indicate which projects they are especially interested in. In this way the board is able to supervise the activities and the members are able to help.
