## Merchandising Club

The Hughes Merchandising Club is limited to students enrolled in Merchandising. This is a program which combines working experience with school work. The students gain experience in selling, office work, and general Merchandising information. The Merchandising program is a co-op plan whereby the students work three half days a week.

The club is under the leadership of Mrs. Helen Bowers and has become affiliated with the Distributive Education Clubs of America.

Several trips are planned throughout the year for the students to visit different large companies around Cincinnati.

At the conclusion of the year, a Savings Bond is awarded to the most outstanding student in the merchandising course. Many of the co-op students will continue working in their stores after graduation.

## Ice-Skating

The Ice-Skating Club was founded at Hughestown last year. Now in its second year, the club has increased in membership and activities under the leadership of Mr. Brooks. The club has a 3 C program, which means good citizenship, Christian ideals, and credit to the school. Membership includes boys and girls from grades 9, 10, 11, and 12 who are interested in ice-skating. Every member receives an emblem and may earn an honorary star for learning a skill.

The Ice-Skating Club holds its weekly meetings on Monday nights. At the meetings the members enjoy films and talks on subjects pertaining to ice-skating.

The club made a Thanksgiving basket, for which each member contributed as much canned goods as possible.
