Health Careers Club

This club is devoted to the purpose of maintaining an active interest in careers in health. Newly formed, the club was the outgrowth of last year's Future Nurses Club. Now open to all students interested in being a doctor, nurse, pharmacist, or medical technician, the club shows interesting films, takes tours of hospitals, and does volunteer work for organizations to get pins. A minimum of ten hours of volunteer work is required before pins are awarded, these being given the year round.

A formal initiation of new members is held in December, and the giving of baskets to needy families at Thanksgiving and Easter round out the year's activities.

Coin Collectors

The Coin Collectors Club was organized in September 1957 for the purpose of getting students together who are interested in collecting American and foreign coins.

Meetings are held the second and fourth Mondays of each month. Varied programs such as guest speakers, coin exhibitions, coin auctions and swapping sessions have been the keynote of the meetings. The members include students who wish to start a collection as well as those who have large collections.

Last year, this club was publicized in one of the Saturday Youth Pages of the Enquirer.

The officers of the club are: Larry Weiss, President; Charles Meiman, Vice-President; Bob Knapp, Secretary; Mr. Harry Grill, Faculty Adviser.
