

Art Gives Self-Expression and Appreciation of Form

Art is a creative subject which enables the students to gain coordination, to express originality, and to assume responsibility. Through competition with students of all lands, they gain an appreciation of life, color, continuity, and composition.

Some of the main exhibits which they participate in are the Symphony Exhibit at the Art Museum, the Scholastic Art Show, and the International Red Cross Show at the Taft Museum.

Students in the art classes also perform several necessary chores for Hughes, the most time-consuming one being the Merry-Go-Round settings. The Christmas decorations, also a product of their work, are always admired by everyone. The advanced seniors under Miss Adomeit do the art work for the HUGHES ANNUAL.
