

Martha Powell scores again.

Basketball

Softball

Softball wound up the major sports for the year. Held twice a week at Fairview Field, softball had a good turnout of girls who were all anxious for the outdoors after spending the winter months inside. All feeling like experts in the spring, the girls did not need much coaching from Miss Mary Busser, but sportsleader Marion Lakes and assistant Annie Walker kept a watchful eye on them. After several teams were formed, the girls played each other for practice in order to get ready for the competitive playing at the Spring Sports Day.

Roz Schneider tries for home.

Jan Keller

"Guard her!" and "Shoot now!" are some of the excited shouts heard from substitutes watching their teammates play basketball in the girls' gym after school. Basketball, a favorite sport of many girls, was played on Mondays and Wednesdays under the coaching of Miss Mary Busser. Sportsleader Jan Keller and assistant Alice Owens gave a helping hand whenever possible and kept track of the balls. Some of the girls got so excited when playing that at times they forgot that they are allowed to take only two steps before passing the ball to their teammates. But finally, after practicing running and stopping, passing, guarding, and shooting, the girls felt that they had enough team work to participate in playday at Withrow and Walnut Hills.

Marion Lakes

"It's mine!"
