

Madame Parker, professeur de francais, and her husband, Mr. Garland Parker, had to be content to view the Eiffel Tower from afar.

Far Places Lure Teachers

Far places beckon to Hughes teachers each summer. The call has reached Miss Wyler, Miss Wycoff, Mrs. Parker and Miss Hollweck, who have visited Europe. Miss Schawe, who has traveled extensively in the Americas as well as Europe and the Far East, has photographed adventure-logs and lectures on her travels. Cooler places call to Mrs. Walton, who has crossed the Arctic Circle, and Miss Kloak, who enjoys the mountains.

The United States also entrances prospective travelers. Miss Beaver finds the land of the Pennsylvania Dutch appealing, and Miss Pennington thrills to the beauty of the Hawaiian Islands. Beautiful Ohio inspires Miss Schwach and Mr. Richert with its historical points. Miss Dunlap's engaging travel philosophy includes visiting picturesque, out-of-the-way places, anywhere.
