

"Now, Doris, don't forget to put the car in drive," instructs Mr. Otto. Listening are R. Hector and E. Eberhart.

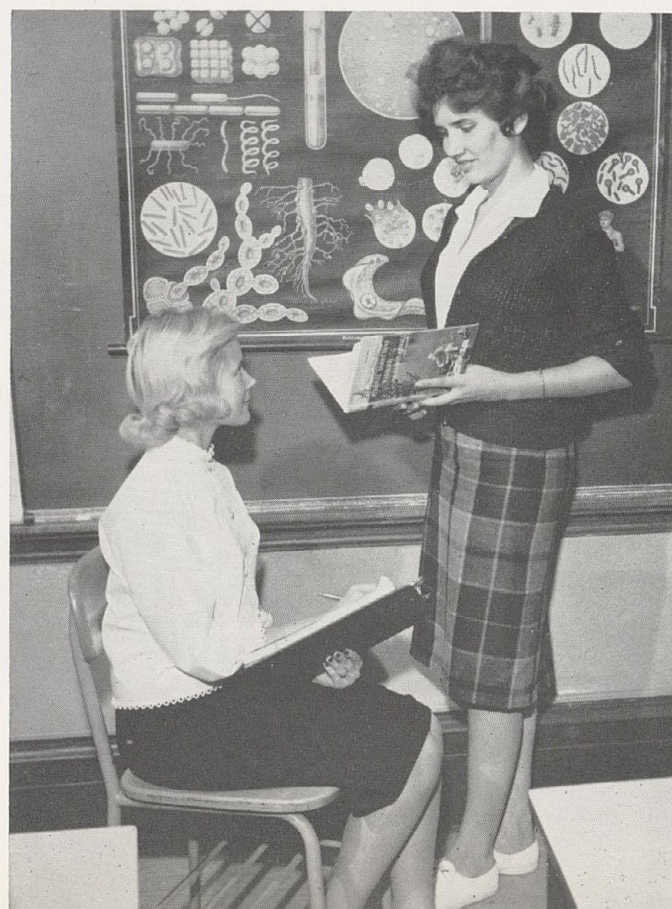

Practical Goals Achieved In Health and Driver Training

Mr. Hundemer and Miss Nurre teach Hughes sophomores the required semesters of health and driver education. These subjects provide a firm foundation for senior health and driver training.

All seniors study health. First Aid, home nursing, and boy-girl relationships are thoroughly covered. Pupils successfully completing first aid are certified by the Red Cross.

Mr. Otto, teacher of driver training, believes everyone with a study hall should take this course because of the important dividends it pays in safety and economy. The only prerequisite is a course in driver education.

F. Williams discusses the common cold germ with J. Schlacter.
