

While Denise Donlan discusses the main events of the story, Mr. Mellinger checks students' notes.

## English Department Values Contribution of Library

The English Department equips the students with a working knowledge of English. In English classes, students develop an extensive vocabulary for everyday use. Selected poetry, many novels, other literary works, such as the plays of Shakespeare, and examples of contemporary drama are studied. Courses in dramatics, speech and journalism are offered also. In the reading program, students increase their speed and comprehension. For the student who takes advantage of his opportunities, the Hughes English Department offers the key to success.
