

# New Math Now Part of Curriculum at Hughes

The new mathematics curriculum at Hughes is organized so as to allow students to pursue the study of mathematics at their own level for four years, if desired. Some students find success in general mathematics, modern mathematics, and consumer mathematics. Those interested in business find business arithmetic just what they need. Academic classes satisfy students' requirements for college preparation with algebra, geometry, trigonometry, and even calculus, in the accelerated program.

TOP ROW: Miss Dorothy Beaver, Mr. Ellis Caudill, Mr. Edward Driver, Miss Judith Eschmeyer. SECOND ROW: Mr. Fred Foegler, Mrs. Judith Hanon, Miss Gladys Kloak, *Honor Society*; Mr. Robert Kuenzler, *Attendance*. THIRD ROW: Mrs. Nancy McDaniel, Mr. Edward Morris, *Wrestling*; Mrs. Nadine Radkey. FOURTH ROW: Mr. Harold Stier, Mrs. Nora Walton. BOTTOM: Mrs. Ruth Werner, *Future Teachers of America*.

Marilyn Tilford, Alice Brand, Jerry Tepe, and Joyce Beckman, in Miss Kloak's advanced math class, illustrate a point in space by reference to the X, Y, and Z axes.

Young math students of Mrs. Richardson are R. Kindoll, M. Lee, J. Roberts, G. Barnett, B. Davis and K. Adams.
