

One of the new model microscopes is being used by L. Culbertson and J. Odom in their experiment.

"Boy, doesn't that paramecium swim fast!—Isn't it cute!" L. Chambers, B. Levie, and D. Robison are in Mr. Ridenour's class.

"Now, this is how you dissect a grasshopper," explains Mr. Warner to D. Mauntel and E. Cash in zoology class.
