

Shop Work Valuable to Future of Many Boys

The Industrial Arts Department at Hughes includes electricity, graphic arts, metals, woods, and mechanical drawing. These industrial arts courses contribute to the students' understanding of industry, develop technical and problem-solving skills related to material and industrial processes, and enable each student to acquire a measure of skill in the use of common tools and machines.

Displays of student-made projects won numerous prizes at the Ohio Industrial Arts Convention in Columbus and at the 1964 Carthage Fair.

FROM TOP: Mr. Jack Bongey, *graphic arts*; Mr. Thomas Frolo, *metals*; Mr. Charles Jonas, *mechanical drawing, tennis*; Mr. Willard Kalchek, *woods*; Mr. Ruey Newson, *junior high, attendance*; Mr. Carl Oberschmidt, *electricity*; Mr. Everett Sheets, *junior high*.

Here T. Hodge is testing the voltage of a transformer constructed in Mr. Sheets' eighth grade electricity class.
