Paula Stephens brings her Science Fair project to Mr. Cherry.

Junior High Science Club Now Has New Sponsor

The Junior High Science Club is an organization to increase interest among junior high students in the field of science.

Each month an interesting guest comes to Hughes to give an informative speech dealing with the branch of science with which he is closely associated.

The club, originally organized by Miss Helen Betty Newman, is now sponsored by Mr. Cherry.

The first order of business each year is the election of officers capable of running an active club.

They are as follows:

President—Paula Stephens

Vice-President—Steve O'Banion

Recording Secretary—Linda Jewell

Treasurer—Alex Weber

The officers assist in obtaining interesting speakers for programs that will be enjoyed by all members.

The club is widely known throughout the school for its annual sale of flower seeds.
