

## Modern Dance Group Develops Grace, Poise

Participants in the modern dance portion of the G.A.A. program don their leotards every Monday afternoon and practice with determination under Mrs. Zeisler's instruction. The girls are interested in developing rhythmic movements

with grace and poise. The Modern Dance Chorus performed artistically at the Merry-Go-Round to the music of "Baby Elephant Walk". The girls ended their activities by attending the Modern Dance Symposium held in the spring.

Modern dance groups practice for Merry-Go-Round and other programs.

## Go Where the Action Is—To the Pool

Many water-lovers head for the swimming pool every Thursday afternoon during the G.A.A. season. Mrs. Henderson conducts practice and helps the girls learn various kinds of strokes. There's plenty of action while some girls are splashing along using the butterfly stroke, several others are developing a steady rhythm with their back stroke, and

still others are trying to coordinate arm and leg movements of the breast stroke. Then there's a little lull before the girls form teams and race excitedly back and forth across the pool to gather as much speed as possible. Also, the more advanced swimmers study life-saving techniques.

Interested girls may join the swimming team and participate in meets.

Sandy Settle and Pat Pattoon ready themselves for a fast diving start.
