

10 and 0, it's the truth! There was no use of steroids or black market gambling to promote such a record. This is the result of an excellent coaching staff and the great effort of Withrow High School's football **team**. The word

"team" must be emphasized because it was the best group effort shown by Withrow in years. Thanks to all forces, we were able to crush C.A.P.E., appear on television and in the newspaper on many occasions, and set an exam-

ple for all to try to follow. Even when the computer failed to give us the necessary number of points to put us in the playoffs, we stayed together as a team. Excellence has no falter. 1988-89 is the "Year of the Tiger."
