

"Can You Hear The Echoes In Honor of Black History"

The Black History Program on February 26, 1992 carried us on a history journey of black America. We first visited the Great Kingdoms of Africa through Slavery. Then we heard the echoes of Black America in the 1950's & 60's. Then the journey took us to a New Bondage of Blacks in America in the 90's. Stop destroying our race was the theme but continue to move forward like our ancestors.
