Principal Ramstetter's Message

Dear Students:

Welcome to Withrow High School's eighty-first year! We are proud to be part of an institution rich in heritage and promise. With test scores rising, the graduation rate increasing, and more of our graduates attending college, Withrow has indeed been on the move. Your success is directly attributable to your work as well as to the efforts of Withrow's teachers, support staff, parents, and community. Through the tireless commitment of our Alumni and the Junior League, you have enjoyed the resources available in our College and Career Center.

As you think back upon the year that ushered in the new millennium and the experiences that helped form your later life, may you find the pictures and words in this yearbook a tribute to your years at Withrow.

Sincerely,

Paul Ramstetter
Principal
