2004 Season Recap

Our Tigers' season ended with a 10-1 record and a first ever playoff birth. This season we've done something that no one has ever done here before. We made it to the playoffs and had a number one seed. We also made the state record books for being the first Cincinnati Public School to host a state playoff game. We had a perfect season and became City Champs and League Champs. We were the first Withrow team to be ranked No.1 in the Cincinnati Enquirer Coaches Poll and we were team of the week two weeks straight. Some can say that our season meant nothing because we lost first round in the playoffs but this season was just a stepping stone for the following teams to be better than the other teams before them. We would like to thank all of our fans this year and all of the players, coaches, and everyone else that helped us this year on our historical season. Hope that we can give you this same excitement and more next year.
