

# COMMUNITY SERVICE

Community Service is something that is needed for college. These students are getting a head start to a great future. Even though it takes hard work, they love it, every minute of it. They never complain because it's their duty to serve the community well. What goes around comes around.

**Above:** An advisor from the Mayerson Foundation shows off Withrow's accomplishments.

**Above:** Community service students enjoy lunch together.

Together the community service students form a special bond like no other. Without the love that they have for one another and their community, many good things would not have happened. They have done a great job this year representing Withrow and serving our community. Keep up the good work!
