

The Juniors, banding together, constructed this fine interpretation of the Nativity Scene. The atmosphere of the scene was completed when a heavy snowfall occurred. The display was lit at night by means of several floodlights.

Did You Know

The last time it happened was in 1881, and the next time will be in the year of 6009. This rare occurrence is happening during this year. It is not a comet nor is it a fifty-five Plymouth (green and cream color) what it is, is that no matter which way you look at the number 1961 it reads the same, 1961.
