## Photography Club

The photo club working with Mr. Kasselman is one of the practical working clubs of the school. In addition to pursuing their own interest in Photography the members contribute to the school by doing a great deal of the picture work needed by an organization such as Covington Catholic. Our "flash bulb fanatics" are an active and growing group.

In the field of service the Junior Poster Club has a field all its own. This was perhaps due to the two personalities who ran it, Jim Kruer and Larry Koehl. In addition to making posters the club, which wasn't composed entirely of juniors seemed to have its fingers or at least its members in any project that the school needed help on. Long may the Junior Poster Club reign!
