

# Library

"I like Democrats!"

One spot in the school your sure to find students "hanging out" is the library. Lately, it has been suggested that this is due to the superior quality library that we enjoy. This is open to question. However it is a fact that we do have a tremendous library. History is one of the sections that is superior to any

comparable school library.

In addition to doing a great job, our librarian, Mr. Joseph Hackett is personally well liked by many students for his unique style in dealing with all situations. He is one of the features of local color that makes life so interesting and unmonotonous.

Mr. Hackett reads passages from his Bible to Louis DeFalaise and Brian Flanagan.
