

Our homeroom teacher is Mr. Gieser, of the Mathematics Department. Throughout the year we have tried to be a credit to the school and our homeroom. Lately we haven't won any of the contests or sporting events, but we tried and that's what is important. Although it doesn't show on paper, we have had a great spirit and tried hard in everything. Among our assets are several fine athletes. Also we boast six consistent "honor roll" members.

This student Mass, just like all the others held throughout the year, played an important part in making this school year a success. What other service could possibly bind the student body together so well as this—a reminder of our union in Christ's Mystical Body.
