

Up until 1949, Plainville had been state runners-up three times. This season was destined to break the precedent.

The track season as a whole was successful; however, few ever dreamed they would return from Columbus as state champs.

The boys did their best throughout the meet, and after the final event they realized the name they had made for themselves and their school. Noteworthy is the fact that they won the meet by defeating their traditional rivals from home—Lockland.

By the time the final meet drew to a close, the boys had won a total of fourteen trophies and set several new school records.

Under the capable supervision of "Doc" Kusel, we are sure our school—as Mariemont—will gain just as much success as Plainville.
