

Freshman Home Economics Club

The Freshman Home Economics Club found various methods of enjoying themselves. One way was taking trips, which included Procter & Gamble, Frank Tea and Spice, and Strietmann's Bakery.

Another way was sponsoring programs which included a talk by a beautician and films on good grooming.

Sophomore Home Economics Club

The Sophomore Home Economics Club, under the able leadership of Miss Birks and the officers, did many interesting things this year. They prepared and served luncheons for their mothers, and presented a style show and tea. During the second semester a nurse taught Home

Nursing for two weeks. Some of the interesting trips they took are the World Fair at Shillito's, Rubel's Baking Company, and Fashion Frocks. In order to pay for these trips, they had many money-making projects: one of which was selling cake in the halls.
