

Underclassmen . . .

Here are the underclassmen. Soon they'll be moving into the senior's places, but now they're just moving along with the crowd. They need a little directing, now and then, as we all do, but they'll make it. Being an underclassman is just another phase of life. It's a time for lots of fun and excitement, with an awful lot of good old hard work too. It's just a preview of what is to come.
