

A Basis For The Future

Future Business Leaders of America

in the year the members were privileged to meet ex-governor O'Neill and ex-senator Bricker and were addressed by them. The club was successful in broadening the interests of the students and familiarizing them with our country's problems—local, national, and foreign.

FBLA is a fairly new organization and has been very active in the past year. A few of the purposes of FBLA are to create more interest and understanding in the intelligent choice of business occupations, to participate in worthy undertakings for the improvement of business and the community, and to strengthen the confidence of young men and women in themselves and their work. Some of our projects have been selling of Mariemont High School decals, bake sales, and a job survey. Our interesting programs have included businessmen who told us about their work, a cosmetic demonstration, and a panel of last year's graduates who told us about their present positions in the business field.

In order to go on all day field trip to business offices, each member must earn a total of 750 points. These points are earned by working for teachers, attendance at meetings, and committee work. We all feel that this has been an enjoyable and profitable year.
