The National Thespian Club is an organization which promotes drama and the dramatic arts on the high school level. Membership in the club is attained through earning ten points. These points are given for participation in the presentation of a play and for seeing a professional stage play.

The Thespians started this year by attending the Southwestern Ohio Regional National Thespian Conference. Many of the senior members participated in "Our Town". The Thespians also enjoyed and took part in several one-act plays and felt that it was a very successful year.
