The '58-'59 basketball season began with little enthusiasm. The team was not expected to equal the fine record of the team of the previous year.

However, the Warriors worked with a goal in view and outlasted all opposition to become the only undefeated team in the city before finally losing in its fourteenth game of the season.

The team spirit was terrific. The players put forth that extra effort which makes champions and which made them champs of the Eastern Hills League.

The fighting Warriors finished the regular season with a 13-4 record including two forfeited games. The boys however, consider it a 15-2 season as many others probably do.

Coach "Doc" Kusel inspired the team to its fine record and gave them the confidence to come through in the traditional M.H.S. manner.
