Student Council

The 1956-57 Student Council met its every expectation. Each class was represented by able-bodied students who did their best to assure success. As a service to the school the Student Council prepared the Student Directory in October and the Student Handbook later in the year. Both of these projects took a good deal of time and effort, and the members deserve much praise for their work.

During the school year the Student Council made four major contributions to school spirit. In the first semester they sponsored the student presidential bal-

loting. Turn-About Day and Twirp Week were the second semester projects. The Pep Club was active during football and basketball seasons.

To stir up interest in the doings of the Student Council, one meeting was held as an assembly before the student body. This assembly was completely unrehearsed and gave a true picture of the doings of the Student Council. To find what improvements could be made, members of the Student Council visited meetings of neighboring Student Councils.

*Sue,
To a fellow
council member.
You did a real swell
job. Best Wishes
P.S. Here's to a guy
the name of Sue Curry
guy by the name of Rich*
