

The Minority Mentoring program sponsor many activites to promote education excellence. Many students had the opportunity to take trips to several colleges in Ohio region. The program helped students with SAT preparation and helped many of its students to improve on grades by having mentors and tutors. In the fall many students attended the 2nd annual stepshow and in the spring MMP had its first scholarship drive and stepshow. With the money raise MMP gave several students scholarships for college. So that all members, parents, and mentors could come together a banquet was given. At the banquet many people were recognized. Our Hats off to Mr. R. Garner.
