

● Have you noticed any changes around Withrow this year? These are mainly through the efforts of one man, Mr. A. O. Mathias, acting principal since Mr. Peoples' death last year. Mr. Mathias was able to make these improvements, such as more pep assemblies and the discontinuation of Freshie Day because of his thorough knowledge of our school. He has been a teacher in Withrow since the doors opened in 1918. He studied agriculture until 1926 at which time he switched to mathematics when agriculture was discontinued from the curriculum. He likes to teach and would rather be a regular classroom teacher than an administrator. We cheer Mr. Mathias for his grand start and hope that he with our cooperation will continue successfully with his further plans.
