

● The members of the Junior Class look forward eagerly to the elections for Senior Council as becoming a member of that body is the honor which crowns the efforts of three years of hard work. This group has the responsibilities of serving as the governing body of the Senior Class, of picking the class jewelry, commencement announcements, and of deciding on the other graduation activities. Another of its jobs is the composing of the Will and Prophecy for the class day exercises. On the first day of school, bewildered freshmen are directed to class by these leaders of the senior class. The council acts as the medium for the student body and the school administration.

● senior council
