

● The Senior Prom—your Senior Prom! You've looked forward to it for four years, just as you've waited for graduation. But graduation is serious—Senior Prom is fun. You don your tux and set out to pick up your best date who looks beautiful in her new formal. No sooner have you arrived and deposited your wraps with the check room girl, than your date has to join the girls in the powder room to compare notes. She returns and you wander over to the group at the piano to engage in a bit of so-called harmonizing, or tag on to the end of the newly organized chorus line, or just "sit one out" quietly and dream of what is to come before being drawn out to join the dancers. In future years, when you look back on your high school life, you will find that this occasion was one of the happiest moments during your four years at Withrow High School.
