

● Driver training, a new class at Withrow this year, is sponsored by the Board of Education through the very capable direction of Mr. Melvin Russell. Each student receives ten minutes instruction per period to aggregate three hours. The dual-control Ford car which the students use during their driving periods was donated by the Fuller Auto Company, which will gratuitously keep it in repair, although the Board of Education bears all other costs. The benefits of such a class are manifold: fewer broken and maimed bodies, shorter obituary columns, and more careful and courteous drivers to help make driving a pleasure instead of a dreaded chore. Withrow will have safe drivers.
