"What would happen to us if the sun were destroyed?"

"We wouldn't get any more vitamin 'D'."

One of Miss Meredith's students in a report on a biography wrote, "She was tired and week and when she awaked she was expired."

Was Theron Usher's face red when water spouted from his bunsen burner during chemistry class?

A question on a certain test: Name five important uses of wood. The answer to that question: 1. For houses; 2. Furniture; 3. Farm tools; 4. Toys; 5. Charlie McCarthy.

In the days when "Pistol Packin' Mama" was popular, we heard this one: Biology class was drawing flowers and labeling parts. One young sprout exclaimed, "I didn't know flowers carried pistols!" His neighbor replied: "Sure, they're pistol packin' mamas!"
