● Dance Club affords Withrow girls the opportunity to learn to express their interpretations of music in beautiful, graceful, and original dance steps. These girls are under the supervision of Miss Helen Hutchinson, gym teacher. Each year the club holds tryouts for prospective members. From approximately one hundred and fifty girls, sixty-five are chose to become members. These girls meet every Thursday in the gym and exercise diligently so that they might be able to perform the difficult steps. Many hours are spent by the girls as they prepare for the Dance Symposium given by the dance clubs of the various public high schools. Each school has similar organizations which come together annually to give their performance. The girls also give a semi-annual recital.
