

spanish club ●

● The Spanish Club, the organization which helps acquaint students with the land of flowers and sunshine, has aided hundreds of interested pupils in acquiring a knowledge of Spanish and our good neighbors to the South. When an important holiday is celebrated, room 302 becomes the scene of exact replicas of Spanish fiestas which are merrily attended by our American senors and senioritas. The club has meetings in which representatives of Latin America and Spain lecture on the good aspects and deficiencies of their homelands. As all meetings are conducted "En la lengua del pais" (in Spanish), only those students who have a ninety average or better in Spanish join.
