

## ● radio club

● W8-EaQ seems a mere tangle of alphabetical terms to most, but to the members of radio club it is the call number for the Withrow "ham" station. Besides contacting other sections throughout the world, various experiments in radio have been conducted under the guidance of the club's advisor, Mr. Ken Vordenberg. By participating in interesting and informative discussions, Radio Club members learn a great deal in the field of electronics. ● The simple every day needle and the mundane pot come to life in the hands of the members of Home Economics Club. They look forward with greatest interest to helping with the Mayor's annual Christmas party. In addition to aiding the underprivileged children of our local area, the members participate in discussions assisted by speakers in the fields in which the members are particularly interested.

Left to right: Seated—F. Sisly, A. Plagstead, J. Wilson, J. Taylor, M. Briggs, B. Lambert, G. G. Schultz, M. Briggs, P. Trinkel, M. Dwanay, B. Frantz. ● Standing—E. Minning, R. Burdorf, J.

Larsons, R. Grier, G. Rhodes, N. Lutrel, J. Keely, D. Coffman, R. Distler, L. Wilder, Mr. Vordenberg.
