

● Under the advisory guidance of Miss Garnet Gooley, the Future Merchandisers Club, consisting of all merchandising classes, meets twice a month after school. This club sets its aim to gaining retail knowledge from outside sources, being of service to the school and individual, and to having social fun together. Three afternoons a week and on Saturday, the members work in downtown department stores. The members of the club spend other afternoons on laboratory work or listening to professional people who want to share their experiences with the members.
