

● offset and nature clubs

● Anyone who is interested in any phase of biology, geology, or astronomy may join Withrow's Nature Club. Its activities vary from lectures by authorities to field trips to different places of scientific interest. A picnic, usually held at Ault Park, finishes the year for these followers of the wonders of nature. ● The best known activity of the Offset Club is the printing and selling of football and concert programs. This group, composed of seven members, is a printers' honorary, since all members are picked by Mr. Sterns for their ability, interest, and industry.
