

physics club

• Left to right; Seated—J. Michelmars, I. Baker, P. Sigler, C. Reif, S. Schenke, P. Davis, T. Davis, P. Trinkle. • Standing—E. Jones, J. Carrole, G. Thurston, J. Schroetel, F. Reeder, J. Prickett, R.

Schanzle, J. Wilson, J. Ballard, J. Graf, J. Steinhoff, B. Bentley, Mr. C. M. Howe, J. Meyer, R. Greer.

● The Physics club under the excellent and entertaining leadership of Messrs. Clayton Howe and Kenneth Vordenberg is one of the most interesting clubs at Withrow. The club spends many enjoyable afternoons listening to speeches by experts in physics and performing practical experiments in the funda-

mentals. The most interesting experiment in which to participate and watch is the dropping of objects from the Withrow Tower. Only students taking physics are eligible for membership. The outstanding events of the year are a picnic in the spring an assembly given for the school, and at least one excursion.

• Left to right; Seated—H. Fitzwater, H. Pierson, N. Platt, J. Messinger, R. Helder, M. Wirth, M. Kamps. • Standing—B. Broker, F. Werner, J. Herman, L. Wilder, J. Larson, R. Martin, M.

Augustine, L. Brockmeier, J. Higgins, G. Doughman, F. Dickman, D. Valodin, A. Plagsted, P. Richardson.
