About 50,000 Withrow students, during the past 15 years, have faced our cameras as we dramatized school life at Withrow High School. They have priceless copies of the Withrow Annuals that will refresh their memories of school days. We have a file of 10,000 negatives.

But our greatest possession is a 15 year file of Withrow Memories. . . . Walter Peoples' constant enthusiasm about his great teachers. . . . a certain Miss A's fiery and brilliant discussions on political issues with her classes . . . the time the swimming coach bailed us out after five hours in jail for going through an amber light . . . the precision and perfection of the music department . . . our continuous bragging sessions with the Dean of Girls about our relatives . . . the unsurpassed food in the teachers' lunch room.

Fifteen years at Withrow . . . fifteen wonderful years because of the people at Withrow.
