

WITHROW IN WINTER

Withrow's stately beauty is prominently displayed in winter. While Nature rests, the students concentrate more on their studies. Basketball occupies the spare time of many boys—a few lucky ones as players, and many others as spectators. The girls' life-saving class in Withrow's chilly pool attracts the braver girls. Chirst-mas comes, giving inspiration to all and a long anticipated vacation to both students and teachers. We study just a little harder as the new year appears, for exams are fast approaching. As real winter comes to Withrow, bringing near-zero weather and delightful snow, an unearthly beauty enhances her landscape.
